MOBILE SOURCE & FUELS SUPPORT

Assistance with Emissions Certification of New Engines and Vehicles for North American Markets

Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

New vehicle and engine manufacturers seeking to sell their products in North America must first obtain emissions certification from regulatory agencies, including the U.S. Environmental Protection Agency (EPA), California Air Resources Board (CARB), and Environment and Climate Change Canada (ECCC). Trinity provides vehicle and engine manufacturers with comprehensive assistance in obtaining emissions certification.

Trinity's services include:

- Registering manufacturers with regulatory agencies
- Developing strategies that allow for efficient and timely certification
- Designing durability demonstration/testing plans
- Assessing the potential for certification carryover and carry-across strategies to reduce emission testing burdens
- Arranging meetings with regulatory agencies
- Preparing all elements of emissions certification applications, including:
  - Auxiliary Emission Control Device (AECD) and Adjustable Parameter Control Descriptions
  - Emission Control Warranty Statements
  - Emission Control Labels
- Submitting and tracking certification applications

Additionally, Trinity can assist with post-certification regulatory requirements, including annual production and Production Line Testing (PLT) reports, agency-ordered confirmatory testing, and defect monitoring and reporting.

Other related services include monitoring new regulatory requirements, conducting comprehensive reviews of manufacturer certification processes, assisting in responses to enforcement actions brought by regulatory agencies, and managing emissions-related recalls.

ISO 9001:2015 certified at our corporate office in Dallas, Texas
