

Trinity Consultants is a leading global consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Within our Built Environment Division, we bring together renowned firms—Cerami, Longman Lindsey, Valcoustics, Jaffe Holden, and WorkingBuildings—under one banner. From cultural landmarks to mission-critical facilities, we deliver innovative solutions in acoustics, technology, commissioning, and operational support, driven by excellence and human-centered design.

We deliver innovative audio visual (AV) design and consulting services that enhance communication, collaboration, and experience across the built environment. Our solutions integrate technology seamlessly into architectural spaces—transforming how people connect, share, and interact.

With expertise across diverse environments, from workplaces and campuses to cultural and public venues, we provide strategic design, system integration, and technology alignment to ensure every solution performs reliably and intuitively.

Our Expertise

Video Walls, Large Format & Lobby Displays

Design and integration of immersive display environments that elevate visual communication and brand presence.

Workplace Collaboration Solutions

Technology-enabled spaces that support hybrid work, teamwork, and productivity through seamless connectivity and user-focused design.

Boardroom & Conference Room Systems

Reliable audiovisual systems optimized for meetings, presentations, and executive collaboration with intuitive control interfaces.

Classroom & Presentation Systems

Scalable, interactive learning environments that enhance teaching, training, and engagement across educational and corporate settings.

Video Teleconferencing Rooms

High-quality conferencing solutions integrating video, audio, and control platforms for seamless global communication.

Background Music & Paging Systems

Comprehensive sound and paging designs to enhance ambience, communication, and functionality within public and private spaces.

Theaters, Auditoria & Multi-purpose Spaces

Performance and presentation systems engineered for exceptional sound quality, visual impact, and flexibility.

Cable / Satellite Television Distribution

Centralized distribution systems for entertainment, broadcast, and information delivery across facilities.

Digital Signage & Video Wayfinding

Dynamic display networks that deliver real-time messaging, branding, and navigation for improved occupant experience.

Our Audio Visual Services empower organizations to create **connected, engaging, and high-performing environments**, where technology enhances communication, collaboration, and experience.
