- Terminals
- Wood Products

Texas Auditing Services

The Texas Commission on Environmental Quality (TCEQ) and the U.S. Environmental Agency (EPA) provide significant incentives for organizations to conduct systematic compliance evaluations. Furthermore, a well-conceived environmental, health, and safety auditing program is vital to maintaining compliance in today's increasingly complex regulatory landscape. Strategically implemented auditing programs enable organizations to identify actual or potential impacts, assess compliance with regulatory or other responsibilities, manage risk, and better understand key issues. Trinity Consultants has a team of highly skilled auditors with extensive experience who can provide independent and

authoritative guidance to enhance compliance and improve business sustainability, stakeholder relations, and performance.

Trinity has completed more than 4,300 projects in Texas over the past decade, many for repeat, satisfied clients. Trinity brings this expertise to each project, providing these comprehensive auditing services:

- Comprehensive compliance audits, including:
 - Air quality
 - Ozone depleting substances
 - Risk Management Plans
 - Wastewater
 - Stormwater
 - Spill Prevention, Control, and Countermeasures
 - Texas GLO oil spill prevention
 - Drinking water
 - Texas solid and hazardous waste
 - Texas pollution prevention planning
 - Underground storage tanks
 - Emergency Planning and Community
 - Right-to-know Act (EPCRA)
 - Chemical Facility Anti-Terrorism Standards (CFATS)
- Focused media/program specific audits
- Management systems audits
- Pre-acquisition/divestiture audits

Trinity works with individual facilities and corporations to design effective and efficient audits to meet company objectives. Based on extensive experience with a wide range of auditing scenarios, Trinity can provide guidance and recommendations on audit scope and approach.

Audit Experience

Trinity is recognized nationally for our skills in evaluating compliance with regulatory requirements and conformance with management system processes and practices. Using our extensive permitting experience and in-depth knowledge of state and federal environmental regulations, Trinity is ideally suited to conduct effective compliance audits to ensure that all applicable regulations have been properly addressed, determine compliance status, and suggest corrective action where needed. The result is a complete picture of all regulatory requirements to help you attain or maintain compliance.

Trinity provides a full range of audit services from audit planning through implementation and closure of corrective action items.

Audit Planning

Audit planning is critical to achieving a successful and productive compliance program. Specific procedures must be observed to take full advantage of the incentives under the Texas Environmental, Health, and Safety Privilege Act and the EPA's Auditing Policy. Trinity prepares notices required under state law and EPA policies, and has successfully assisted companies in reducing or eliminating potential penalties.

Another aspect of the audit planning process is to clearly plan for how audit findings will be resolved and leveraged to harness best management practices and improve overall environmental performance. Trinity assists companies in identifying and implementing these opportunities.

Audit Implementation

Trinity conducts audits across a broad range of industries. These audits range in size and complexity from an audit of a single regulation for an individual site to a multi-facility audit of hundreds of regulations.

Trinity develops auditing protocols and tools that ensure thorough and efficient audit implementation. Trinity can also provide auditor training and tools to assist companies in developing and implementing internal audit programs. Through the audit process, Trinity teams with corporate and plant personnel to develop stronger overall environmental compliance programs.

Trinity Can Help

Whatever your challenge, Trinity has the experience and insights to provide intelligent solutions to optimize environmental performance for Texas industry. Our knowledge and experience in all aspects of auditing make us an excellent partner for these issues.
