

Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

Trinity has been regarded as a premier resource for multimedia environmental consulting services. For clients that require temporary or permanent EHS management support for single or multiple industrial facilities, Trinity's One Source™ Service Plan is a fully customizable solution that offers professional consulting expertise for any type of operation in California and nearly every major metropolitan area within the U.S. We also provide consulting support for locations in Canada, Europe, Asia, and Australia.

The following summarizes several of the key features of our California-specific One Source Service Plans.

On-Site Support for Multimedia EHS Compliance

Trinity provides on-site consulting expertise to facilitate and manage compliance of existing multimedia EHS programs. As required, Trinity's on-site staff will conduct routine inspections, maintain recordkeeping, monitor permit compliance, review operations, interface with regulatory agencies, attend internal meetings, coordinate environmental activities, implement existing EHS programs, and complete other routine tasks. Depending upon client requirements and facility needs, Trinity's on-site consulting staff support can be provided on a weekly, monthly, or quarterly basis.

One Source Service Plans can be tailored to support any multimedia EHS compliance areas, including air pollution, wastewater, hazardous waste, stormwater, safety, climate change, industrial hygiene, safety, or other areas.

Off-Site Support

Trinity also offers off-site consulting assistance for multimedia EHS programs. Trinity's consulting staff assist with preparing routine multimedia regulatory reports and complying with annual filing deadlines. To prepare required reports, our staff evaluates regulatory applicability, collects facility data, compiles information, performs calculations, complete reports, and files agency documentation. As

required, One Source Service Plans can include various regulatory reports, including but not limited to:

- Annual emission reports
- Industrial wastewater discharges
- Stormwater reporting
- Title V permit compliance
- Hazardous wastes
- Air toxics inventories
- CUPA hazardous material business plans
- Greenhouse gas reports

Program Flexibility

Whether a facility requires temporary or ongoing support, Trinity offers maximum flexibility, including short term and annual support contracts. Our One Source Service Plans may include:

- Short-term staffing support
- Monthly support contracts
- Fixed fee options
- No long term commitment

Our technical staff comprises consultants with engineering and scientific degrees which include PhDs, Registered Professional Engineers, Certified Permitting Professionals (CPP), Qualified Industrial Stormwater Practitioners, Accredited Greenhouse Gas Verifiers, Certified Environmental Auditors and other recognized professionals within the environmental industry.

Industrial Expertise

With over 4,300 projects completed in California, Trinity has extensive experience in a wide range of industries, including:
