

 Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

The chemical data reporting is a mandatory filing by U.S. companies to EPA of substance volume, processing and use, and exposure information to protect the public from potential chemical risks.

The CDR rule is required by section 8(a) of the Toxic Substances Control Act (TSCA).

### Who are Required to Report?

All U.S. based manufacturers and importers of TSCA inventory listed chemical substances meeting specific volume criteria.

### CDR Data Submission

Online electronic submission is required by EPA via Central Data Exchange (CDX).

### New Updates

- More data to report (increased from 1 to 4 years of data)
- More substances to report (lower volume triggers)

### CDR Volume Criteria-Subject to Change:

- Production volumes greater than 25,000 lbs. on any one site/ one a year
- Specific chemicals with more than 25,000 lbs. on any site/ one year

*ISO 9001:2015 certified at our corporate office in Dallas, Texas*
