

 **Trinity Consultants** is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

The global matrix of chemical compliance requirements continues to grow in size and complexity. Our Chemical Regulatory Services group can supplement your existing chemical regulatory program or provide the expertise to manage all of your compliance needs. With the skills and staff to comprehensively assist you, we can help determine what regulations apply, how to handle the requirements, and what systems/tools/support you need to strategically position your products.

We routinely assist our clients with the following:

- Regulatory interpretation and applicability determination
- Supply chain auditing
- Enterprise Resource Planning (ERP) controls

We can help you analyze your current management systems for proper chemical identification assess compliance requirements for individual chemicals and products, and maintain appropriate

controls that allow you to manage changes in your supply chain inputs to meet regulatory requirements. If you don't have a system in place, we can help you develop a system to best suit your needs.

If you need to assess your existing product stewardship program, need a comprehensive program audit, or need guidance on the value of a product stewardship program, please reach out to us.

*ISO 9001:2015 certified at our corporate office in Dallas, Texas*
