

# Complete OSHA Safety and Health Program Compliance

**Trinity Consultants** is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

Trinity Consultants assists organizations with Occupational Safety and Health Administration (OSHA) compliance management as well as broader environmental and business performance issues such as sustainability, climate change, safety, and process engineering. Trinity provides a unique blend of consulting, technology solutions, and training in environmental, toxicology, industrial hygiene, and regulatory compliance to help our clients achieve economic, employee, and community success.

Trinity Consultants' safety and health compliance has continued to grow over the years and has become a significant part of doing business with Trinity. Our reputation for the highest quality and responsive services keeps clients competitive in their respective markets. Examples of OSHA Compliance Services we provide are:

- Regulatory Compliance Auditing
- RMP/PSM Compliance
- Industrial Hygiene and Safety
- Health and Safety Program, and Project Management
- Training Program Services
- On-Site Support

## Regulatory Compliance Auditing

Auditing systems to evaluate compliance with regulations is especially important because of potential liability issues. Trinity develops a protocol for compliance audits and assesses site performance related to OSHA regulations, including state and local requirements.

## RMP/PSM Compliance

- Trinity serves a broad cross-section of industries with Process Safety Management (PSM) and Risk Management Program (RMP) support
- We work with clients to determine whether the facility uses any of the listed in quantities that exceed program applicability thresholds

- We evaluate options to modify processes in order to opt out of the applicable program or step down to a less rigorous level (in the case of RMP)
- Once program applicability is determined, we can assist with the development of the PSM/RMP applicable components - Hazard Assessment, Prevention Program, Emergency Response, and the RM Plan

## Industrial Hygiene and Safety

- Chemical exposure assessments
- Noise exposure assessments
- Exposure control advice and engineering
- Industrial ventilation
- Laboratory safety
- Indoor air quality
- Industrial hygiene statistics

## Health and Safety Program, and Project Management

Trinity personnel can develop various programs as needed by the facility. We will tailor each written program specific to the requirements of the site.

- Complete written health and safety program development
- Workplace compliance audits and site inspections
- RMP/PSM support
- NFPA compliance including hazardous chemical storage and electrical classifications
- Lockout/tagout procedure development and implementation
- Confined spaces
- Hot work
- Hazard communication

- Safety Data Sheet development
- Conduct Job Safety Analysis (JSAs)
- Accident Prevention and Investigation

## Training Program Services

Proper training helps promote a safe work environment. Trinity provides experienced instructors that provide a fun learning experience and answer specific questions during the course of the training.

- Trinity provides a wide range of health and safety training both off-site and on-site
- Will develop custom-tailored OSHA training based on your company's needs
- Lockout/tagout
- Confined spaces
- Hazard communication
- Industrial lift truck
- Fire protection and fire extinguisher use
- Electrical safety practices
- Bloodborne pathogens
- Incident investigation
- PSM/RMP
- Hazwoper
- Job Safety Analysis
- Contact Trinity for specific training needs

## On-Site Support

- Safety and health consulting
- Trinity can provide staffing to support OSHA compliance
- Provide complete health and safety support through emails and phone
- Conduct health and safety inspections monthly, quarterly, and annually
- Conduct comprehensive safety and health audits
- Develop written safety and health programs that are site-specific

## Why Choose Trinity

Trinity maintains a strong group of consulting professionals with extensive experience who collaborate and communicate frequently on issues related to OSHA compliance to help keep you informed of important regulatory developments. Whatever your challenge, Trinity has the experience and insights to provide intelligent solutions to optimize air quality related environmental performance for our OSHA clients. Our knowledge and experience across a wide range of environmental issues make us an excellent partner for addressing these matters.
