

 Trinity Consultants Canada is a leading environmental consultancy that brings together trusted advisors, scientists and engineers to help clients solve their most complex challenges. With deep local roots and the strength of a global organization, Trinity Consultants Canada delivers innovative, scientifically sound and future-ready solutions that help industry, government and Indigenous communities navigate complex regulatory landscapes, secure project permits and approvals to achieve better environmental outcomes. They are internationally respected leaders with decades of proven expertise in Water & Ecology, Environmental Health and Safety (EHS), Built Environment and Life Sciences.

Our Water & Ecology teams are recognized leaders in environmental assessment, permitting and monitoring, offering key services to sectors including renewables, mining, ports and terminals, marine shipping, linear development, liquefied natural gas (LNG), ecological restoration, municipal wastewater, energy, and forestry.

from thousands of successful project engagements and a unique perspective gained by writing environmental guidelines on behalf of government. We provide proven complex problem-solving expertise to sectors including renewables, mining, ports and terminals, marine shipping, linear development, liquefied natural gas (LNG), ecological restoration, municipal wastewater, energy, and forestry.

Our Expertise

Trinity Consultants Canada has supported mineral exploration and mining clients for over two decades in successfully navigating the environmental regulatory processes from the early stages of project conception through closure. As environmental assessment practitioners, permitting specialists, and environmental discipline experts, our experience includes early-stage strategic regulatory advice, engagement and communication support, environmental baseline de-risking, and permitting pathways planning across multiple jurisdictions. Our team can support the transition from exploration to development, through operations and post-closure.

Trinity Consultants Canada is a recognized leader in environmental assessment, permitting and monitoring, offering key services to industry, all levels of government, not-for-profit organizations, and First Nations. Our teams have extensive experience gained
