

**Trinity Consultants** is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

Trinity Consultants has partnered with organizations to help them address complex, mission-critical challenges in EHS, engineering, and science. We accomplish this through expertise in consulting, technology, training, and staffing. Trinity supports clients in Montana and geographies worldwide in a broad array of industrial and commercial sectors.

Trinity is recognized as a leading provider of environmental compliance services. Our staff bring extensive hands-on knowledge of Montana environmental permitting programs, regulations, and compliance requirements to each engagement.

Trinity's Montana office has served clients in a wide range of industries, including:

- Building Products
- Cement, Lime and Aggregates
- Datacenters
- Electrical Power Generation
- Food and Beverage
- Agriculture
- Manufacturing
- Mining (Copper, Uranium, Mineral)
- Oil and Natural Gas
- Pipelines and Terminals
- Pulp and Paper
- Refining
- Surface Coating
- Transportation

## Air Quality Support

Whether constructing a new industrial facility or modifying an existing facility, managing compliance or enforcement/litigation matters, installing ambient or meteorological stations, or developing climate change or sustainability strategies, facility owners and operators may be subject to various air quality related environmental requirements. Trinity specializes in assisting organizations with a full

range of air quality support solutions, including:

- Air permitting applicability, strategies, due diligence, siting and feasibility analyses
- Montana Air Quality Permit (MAQP) and PSD/Title V/major source air quality permit applications (initial, modifications, renewals)
- Air Dispersion Modeling
- Tribal Land New Source Review
- Regional Haze support
- Emission inventories such as annual emission reports, Toxic Release Inventories (TRI), Tier II, and TSCA
- Control technology evaluations and compliance for BACT/LAER/RACT/MACT
- Regulatory Applicability Reviews (RACT, CAM, NESHAP, NSPS)
- Greenhouse Gas (GHG) support
- State Implementation Plan (SIP) support
- Enforcement, litigation, liability, expert witness service, and client advocacy
- Negotiation, public outreach, and strategic advising with Montana DEQ as well as EPA Region 8

## Multimedia Permitting, Compliance, and Reporting Support

In addition to potentially triggering air quality permitting requirements, constructing a new industrial facility, or expanding or modifying operations at an existing facility may trigger other media permitting or management requirements. Trinity boasts extensive practical experience in multimedia environmental analysis and regulation, including providing the following services:

- Emergency Response Plans (ERP)
- Facility Response Plans (FRP)

- Integrated Contingency Plans (ICP)
- National Pollutant Discharge Elimination System (NPDES) Support
- Refrigerant Management Support
- Spill Prevention, Control, and Countermeasure (SPCC) Plans
- Hazardous waste permitting and compliance
- Solid waste/universal waste/used oil management
- Waste minimization programs
- Solid Waste Management Unit (SWMU ) investigations and corrective action
- Resource Conservation and Recovery Act (RCRA) reports

## Risk Management Plan/Process Safety Management

We're here to help with your development and implementation of RMP and PSM program elements, including conducting off-site consequence analysis modeling, performing Process Hazards Analysis (PHA), and compliance audits for various facilities and program levels.

- Social and economic impacts
- Traffic and land use impacts

## Trinity Can Help

Whatever your challenge, Trinity has the experience and insights to provide intelligent solutions to optimize environmental performance for our industrial clients. Our knowledge and experience in all aspects of EHS compliance management make us an excellent partner for addressing these issues.

*ISO 9001:2015 certified at our corporate office in Dallas, Texas*

## Compliance Auditing

With in-depth knowledge of state and federal environmental regulations, Trinity is ideally suited to conduct full-spectrum compliance audits to ensure all applicable regulations are addressed, determine compliance status, and suggest corrective action where needed. The result is a complete picture of all regulatory requirements to help you attain or maintain compliance.

## NEPA Services

If you find yourself in need, Trinity can develop a NEPA compliant Environmental Assessment (EA), Environmental Impact Statement (EIS), or Categorical Exclusion (CX). We'll identify the following impacts from the proposed project:

- Biological impacts to wildlife and plants
- Cultural impacts at archaeological/cultural sites
- Impacts to environmental media
- Noise and visual impacts
