

Trinity Consultants is a leading global consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Within our Built Environment Division, we bring together renowned firms—Cerami, Longman Lindsey, Valcoustics, Jaffe Holden, and WorkingBuildings—under one banner. From cultural landmarks to mission-critical facilities, we deliver innovative solutions in acoustics, technology, commissioning, and operational support, driven by excellence and human-centered design.

We provide integrated facility operations services that support the ongoing performance, reliability, and sustainability of the built environment. Our approach combines technical expertise, operational insight, and digital tools to help facility owners and operators maintain assets, reduce risk, and optimize system performance throughout the facility lifecycle.

By aligning operational strategies with design intent and commissioning outcomes, we help ensure facilities operate efficiently, safely, and in accordance with owner objectives and regulatory requirements.

- Commissioning and Facility Management Software
- Facility and Site Condition Assessments
- On-Site Facility Operations

## Our Expertise

### Commissioning & Facility Management Software

Deployment and integration of digital platforms to support commissioning data, asset management, performance tracking, and lifecycle documentation.

### Facility & Site Condition Assessments

Comprehensive evaluations of building systems, infrastructure, and site conditions to identify deficiencies, assess risk, and inform capital planning and maintenance strategies.

### On-Site Facility Operations

Technical support for day-to-day facility operations, including system monitoring, troubleshooting, operational optimization, and coordination with facility staff and service providers.

Our Facility Operations Services deliver enhanced asset performance, reduced operational risk, and data-driven decision-making, enabling facilities to operate reliably, efficiently, and in alignment with long-term organizational goals.
