

Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise and acute industry knowledge to provide optimal solutions to highly complex pharmaceutical development, process, safety, and facility design challenges.

Project Management Solutions

Advent Engineering and Life Science Solutions, a Trinity Consultants team, are experts in the commercialization of biopharmaceutical processes. We provide a wide array of engineering services and project management supporting the entire product life cycle. Our engineers bring many years of experience along with a complete understanding of industry regulations and requirements. We provide project engineering and design, automation, commissioning, and compliance-related services for clients across the U.S. and in Canada, Europe, and Asia.

Advent provides project planning & management capabilities for all project phases, including pre-implementation, design, and implementation. Our engineering experience drives the management of deliverables with an understanding of the compliance intricacies of implementing biopharmaceutical manufacturing solutions.
