

Trinity Consultants is a leading global consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Within our Built Environment Division, we bring together renowned firms—Cerami, Longman Lindsey, Valcoustics, Jaffe Holden, and WorkingBuildings—under one banner. From cultural landmarks to mission-critical facilities, we deliver innovative solutions in acoustics, technology, commissioning, and operational support, driven by excellence and human-centered design.

We deliver expert site assessment services to help clients understand, troubleshoot, and manage noise and vibration issues across diverse environments. Our approach combines technical expertise, advanced monitoring, and practical solutions to ensure spaces are functional, compliant, and aligned with design goals.

From early-stage feasibility studies to detailed compliance reviews, we provide the insight necessary for stakeholders to make informed decisions, reduce risk, and maintain high-quality built environments.

- Noise & Vibration Troubleshooting
- Elevators
- Generators
- Bar/Restaurant Noise
- Gym/Fitness Noise
- Community & Industrial Noise Control
- Noise & Vibration Monitoring
- Construction Activity
- Concert/Music Festival Venues
- Feasibility Studies for prospective space programming
- HVAC Reviews for Noise Code Compliance
- Risk Assessments for building upgrades

Our Expertise

Noise & Vibration Troubleshooting

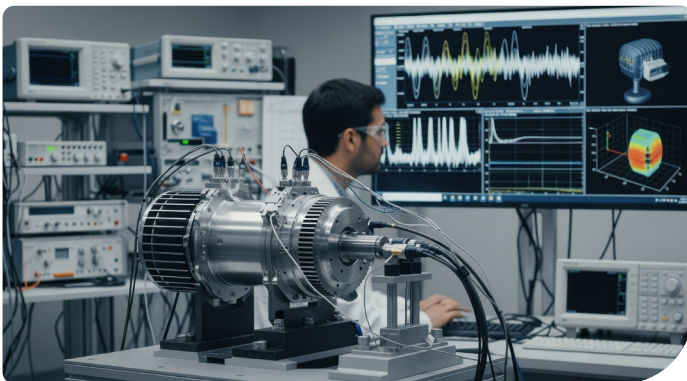

Identifying and mitigating unwanted noise and vibration issues that affect building performance and occupant comfort.

Equipment & Facility Assessments

Evaluating elevators, generators, and HVAC systems for noise code compliance and operational impact.

Hospitality & Lifestyle Spaces

Addressing bar, restaurant, gym, and fitness noise challenges with tailored, practical solutions.

Community & Industrial Noise Control

Supporting municipalities, industries, and developers with environmental assessments and noise abatement strategies.

Monitoring & Construction Activity

Implementing real-time monitoring for construction projects and managing impacts from concerts, festivals, and other large-scale events.

Planning & Risk Assessments

Conducting feasibility studies for prospective space programming and risk assessments to guide building upgrades and investments.

Our Site Assessment Services deliver **clear insights, actionable solutions, and compliance-ready evaluations**, ensuring projects move forward with confidence and environments perform as intended.
