

 **Trinity Consultants** is a leading global consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Within our Built Environment Division, we bring together renowned firms—Cerami, Longman Lindsey, Valcoustics, Jaffe Holden, and WorkingBuildings—under one banner. From cultural landmarks to mission-critical facilities, we deliver innovative solutions in acoustics, technology, commissioning, and operational support, driven by excellence and human-centered design.

- Network Operation Centers
- Converged Network Systems
- Desktop Technology

We are the premier technology design and consulting firm in the U.S., trusted by thousands of clients to deliver innovative and practical solutions for evolving technology needs. Our work ensures that organizations have the infrastructure, systems, and tools to operate efficiently today while remaining adaptable for tomorrow.

We combine strategic insight with technical expertise to design and implement solutions that integrate seamlessly across environments—whether for workplaces, campuses, mission-critical facilities, or enterprise systems.

- Wireless Networks and Predictive Analysis
- Cellular/Mobile Enhancement
- Immersive Display
- Digital Signage and Wayfinding
- Room/Workstation Scheduling
- Trading Floor Data Solutions
- Mission Critical Data Centers

## Our Expertise

### Wireless Networks & Predictive Analysis

Advanced design and modeling to create robust wireless systems that deliver high performance and reliability.

### Cellular & Mobile Enhancement

Expanding and strengthening mobile connectivity with cutting-edge carrier solutions and distributed antenna systems.

## Immersive Display & Digital Signage

Creating impactful digital experiences through immersive displays, wayfinding, and interactive signage systems.

## Workplace Technology Integration

Streamlining operations with room and workstation scheduling solutions that improve collaboration and efficiency.

## Mission-Critical Systems

Engineering resilient technology infrastructure for trading floors, data centers, and network operation centers where uptime is essential.

## Converged Networks & Desktop Solutions

Designing unified, converged network systems and modern desktop technologies that enhance productivity and streamline IT management.

**Our Technology Solutions practice delivers scalable, integrated, and future-ready systems that empower organizations to adapt, perform, and thrive in an increasingly connected world.**
