

Trinity Consultants is a leading global consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Within our Built Environment Division, we bring together renowned firms—Cerami, Longman Lindsey, Valcoustics, Jaffe Holden, and WorkingBuildings—under one banner. From cultural landmarks to mission-critical facilities, we deliver innovative solutions in acoustics, technology, commissioning, and operational support, driven by excellence and human-centered design.

We are the premier technology design and consulting firm in the U.S. As the trusted partner for thousands of clients, we deliver forward-looking solutions that address today's technology needs while providing a framework that can adapt to tomorrow's demands.

Our expertise spans audiovisual, IT, and security systems design for virtually all types of projects and building environments. We focus on creating scalable and integrated technology infrastructures that evolve as client requirements and innovations advance.

- Strategy & Advisory Services
- Program Management
- Technology Solution Design & Implementation
- Voice, Data & Multimedia Network Design
- Unified Communications Systems
- Power over Ethernet (PoE) Lighting
- “Smart Building” Systems
- Integrated Building Network Systems
- High-Performance Wi-Fi & Distributed Antenna Systems
- Computer Center, Trading Floor & Mission Critical Facilities
- Regional, Municipal & Campus Telecommunications Master Planning

Our Expertise

Strategy & Advisory

Guiding clients with strategic planning, technology roadmaps, and master planning for telecommunications infrastructure.

Program & Project Management

Ensuring seamless execution of complex technology initiatives with coordination across multiple systems and stakeholders.

Technology Systems Design

Designing voice, data, security, audiovisual, and multimedia networks that deliver high performance and operational resilience.

Smart & Integrated Building Systems

Deploying unified communications, PoE lighting, and smart building solutions for efficiency, flexibility, and sustainability.

High-Performance Connectivity

Engineering robust Wi-Fi, distributed antenna systems (DAS), and resilient networks to support mission-critical facilities, trading floors, campuses, and municipal infrastructure.

We deliver telecommunication systems that are scalable, integrated, and future-ready—enabling organizations to meet today's challenges while preparing for tomorrow's opportunities.
