

Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise and acute industry knowledge to provide optimal solutions to highly complex pharmaceutical development, process, safety, and facility design challenges.

SafeBridge, a Trinity Consultants team, has board-certified health and safety professionals with many years of experience in a variety of industries with a focus on chemical, pharmaceutical, and laboratory workplaces. SafeBridge has supported more than 700 business entities, government organizations, and universities across North America, Europe, Asia, and South America. SafeBridge was founded in California in 1997 and merged with Trinity Consultants, an international EHS consulting company in 2012. SafeBridge now has personnel working out of Trinity's offices in Exton, Pennsylvania; Boston, Massachusetts; Indianapolis, Indiana; Raleigh, North Carolina; and Toronto, Canada.

SafeBridge is widely recognized for its expertise in the evaluation and safe handling of novel and toxic materials. In addition, SafeBridge has broad experience in toxicology, industrial hygiene, and industrial safety. Our team includes toxicologists who determine and document safe workplace exposure levels for new chemicals, industrial (occupational) hygienists who assess worker exposure and recommend controls, safety professionals who develop regulatory compliance programs and on-site inspection services, and chemists who are knowledgeable in analytical techniques capable of detecting novel chemical materials at extremely low levels.

Our proven track record for delivering high quality and responsive service has led to significant repeat business and referrals to other organizations. We are committed to effectively meeting client needs for both proactive and reactive (crisis management) services including:

- Occupational and Environmental Health and Safety Program and Project Management
- Industrial (Occupational) Hygiene and Safety
  - Exposure assessments (qualitative and quantitative)
  - Exposure control advice and engineering
  - Laboratory safety
  - Indoor air quality
  - Industrial hygiene statistics
- Industrial safety services and training
- Safety program development and auditing
- Site inspections
- Analytical Laboratory Services
  - AIHA-accredited laboratory in Mountain View, CA
  - Method Development
  - Sample Analysis
- Occupational and Environmental Toxicology
  - Occupational Exposure Limit (OEL) determinations
  - Occupational health categorizations (control banding)
