

Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

Make Intelex Work for Your Business

Trinity combines proven IT strategy with deep EHS expertise to help organizations implement Intelex in ways that fit operations, enable users, and deliver real business value. As expectations around EHSQ (Environmental, Health, Safety, and Quality) and Sustainability performance continue to rise, organizations are under increasing pressure to strengthen compliance, reduce risk, and improve operational visibility. To keep pace, companies need digital solutions that do more than manage data; they need practical, scalable platforms that streamline processes, support informed decision-making, and enable smarter, more confident operations.

Intelex EHSQ and Sustainability Management Software provides a SaaS solution to the problem that, when coupled with Trinity's expert planning, implementation, and support, equals a customized, sustainable answer to your compliance, performance, and ISO concerns.

"Count on Trinity Digital Solutions to enhance your Intelex software implementation for a mission-fit experience that works to your unique advantage."

About Intelex Software

Intelex's web-based management systems optimize business performance, enable regulatory compliance, and streamline ISO initiatives. As the oldest independent vendor of EHSQ and Sustainability software in North America, and one of Canada's largest software companies, Intelex has invested over two decades establishing the market. Their global success is driven by world-class employees serving more than 1,400 satisfied clients worldwide. With Intelex, you have the digital tools you need to manage risk, protect lives, and reduce emissions, as you also drive productivity and operational excellence.

About Trinity Consultants

Trinity Consultants helps organizations overcome complex, mission-critical EHS challenges by combining deep regulatory and operational knowledge with proven digital consulting expertise. We work at the intersection of compliance and digital transformation, helping clients select, implement, and optimize technology solutions that reduce risk, strengthen performance, and improve confidence in decision-making.

Our Digital Solutions team brings practical experience across strategy, system design, implementation, integration, adoption, and ongoing optimization, so technology works for your business, not the other way around.

Partnership Case Studies

Incidents and Permits Management.

Trinity assisted a major, publicly traded mine development company implement Intelex for various functions such as compliance and permits management, incidents management, and document control, among others.

Global Platform Design and Implementation.

Trinity led an EHS software planning project for a global biopharmaceutical company that included a needs assessment, software technology screening, and detailed software evaluation. The project resulted in the deployment of Intelex's EHS platform for incident management, change management, sustainability performance, compliance management, and air, water, and waste applications.

ACTS Expansion and User Adoption.

Trinity's unique combination of regulatory expertise and ACTS development capabilities resulted in high quality and reliable delivery of ACTS implementation support services. Trinity developed processes and reports to streamline data acquisition to existing sites and implemented ACTS for new facilities. Trinity user adoption and support, including support for inspection and GHG reporting.

What Sets Trinity Apart

- **Strategy before software:** We align every technology decision to your business goals, operational realities, and compliance priorities before configuration begins.
- **Beyond the platform:** Unlike implementation approaches that focus solely on configuring Intelex, Trinity supports the full transformation effort. From data cleanup and migration

to integration planning, connected systems, and custom development needs, we help manage all the moving pieces that enable long-term success, not just the software implementation.

- **Your team, expanded:** From kickoff through adoption and optimization, Trinity works as an embedded extension of your team to support alignment, governance, and long-term success.
- **Built for tomorrow:** We help connect current needs with future operational, regulatory, and disclosure requirements so your solution can scale with the business.

Manage All Your EHSQ and Sustainability Needs with InteleX

With InteleX at the foundation of your EHSQ and Sustainability efforts, you can rely on a proven, interconnected, and user-friendly management experience – grounded in a robust, secure, cloud-based architecture – for maximum scalability and device-agnostic global access.

In addition to offering a complete set of software solutions across the EHSQ and Sustainability continuum, the InteleX suite also includes their acclaimed Asset Compliance Tracking System (ACTS), a web-based environmental management information system (EMIS) that focuses on air emissions inventories, water quality, and waste management.

Work with a Preferred Partner

To get the most out of your InteleX investment, count on Trinity Consultants, a recognized, preferred InteleX Software solutions partner. We intimately understand the inner workings of their comprehensive offerings. Our client-first approach will help you:

- **Discover:** We assess your organization's goals, processes, reporting needs, and data landscape to define a strong foundation for your InteleX strategy
- **Strategize:** We align your EHSQ priorities, operational realities, and budget with the right solution road map and implementation approach

- **Design:** We translate requirements into a practical solution blueprint, including workflows, data structures, integrations, reports, dashboards, and pilot activities where needed
- **Deploy:** We support system configuration, testing, training, change management, and go-live readiness to enable adoption and minimize disruption
- **Transform:** We stay engaged after launch to optimize the system, support governance, and help the platform evolve alongside your business and regulatory needs

Experience the Benefits of InteleX + Trinity

- Streamlined deployment based on intelligently designed solutions
- Unique agile-waterfall build methodology to allow for an evolutionary deployment without sacrificing timeline or budget
- Rigorous system validation through proven test and implementation strategies
- Organizational change management ensuring widespread user adoption
- Sustained platform life expectancy supported by a preferred InteleX partner
- Access to both Trinity's extensive domain knowledge and software expertise, as well as InteleX's dedicated services team
- Reduced project risk from launch through ongoing maintenance and support

Ensure a Smarter InteleX Journey with Trinity Consultants

With Trinity, InteleX becomes more than a software platform, it becomes a strategic enabler for compliance, visibility, and performance. We help organizations deploy practical, scalable solutions that support users, connect processes, reduce risk, and deliver long-term value.
