

 Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

We can help you analyze your current management systems for proper chemical identification assess TSCA compliance requirements for individual chemicals and products and maintain appropriate controls that allow you to manage changes in your supply chain inputs to meet regulatory requirements. If you don't have a system in place, we can help you develop a system to best suit your needs

ISO 9001:2015 certified at our corporate office in Dallas, Texas

The Toxic Substance Control Act (TSCA) is the U.S. EPA regulations oversight for the safe use of chemicals. TSCA regulates how chemicals are used, reported and monitored. TSCA also has a process where new chemicals can enter the market. These processes can be quite complex and Trinity's Expertise can help you navigate the processes. Our Chemical Trade Group can help supplement your existing chemical regulatory program or provide the expertise to manage all of your TSCA Compliance needs. With the skills and staff to comprehensively assist you, we can help determine what regulations apply, how to handle the requirements, and what systems/tools/support you need to strategically position your products.

We routinely assist our clients with the following:

- New Chemicals/Exemptions
- TSCA Auditing
- TSCA Reporting
