DIGITAL SOLUTIONS

Trinity Consultants & VelocityEHS: Partnering for Value

Trinity Consultants is a leading global environmental consulting firm that brings 50 years of experience providing services and solutions in the EHS Regulatory Compliance, Built Environment, Life Sciences, and Water & Ecology markets. Trinity has the technical expertise, industry depth, and specialized capabilities to help clients achieve their goals across the natural and built environments.

Overcome EHS and ESG Mission-Critical Challenges with a Custom-Fit Solution

International scrutiny over EHS and ESG[1] issues involving companies in industries across the spectrum has raised a plethora of regulations and requirements that are changing the way businesses plan and operate.

In response, Trinity's Digital Solutions team has partnered up with VelocityEHS, a global provider of cloud-based EHS and ESG software, to provide a customized, comprehensive solution to streamlined sustainability, performance, and compliance in today's evolving corporate environment.

> *"With Trinity Digital Solutions in your corner, you can rest assured that your VelocityEHS software has been tuned and delivered to meet your exact operating requirements.*

About VelocityEHS

VelocityEHS, headquartered in Chicago with locations worldwide, is the global leader in SaaS enterprise EHS and ESG technology. Serving more than 10 million users worldwide, the company's unparalleled industry knowhow is supported by more certified experts in health, safety, industrial hygiene, ergonomics, sustainability, the environment, AI, and machine learning than any EHS software provider. Their best-in-class VelocityEHS Accelerate® Platform combines AI and machine learning with EHS and ESG expertise to drive a continuous cycle of improvement—in an approach they call ActiveEHS®.

About Trinity Consultants

Trinity Consultants helps companies overcome complex, mission-critical challenges related to EHSQ and ESG, engineering, and science across a variety of industries and geographies worldwide. For over 50 years, we have served clients in the energy, transportation, manufacturing, life sciences, technology, mining, and process industries, among others.

Our Digital Solutions team focuses on three key competencies: (1) subject matter expertise, (2) business process engineering, and (3) technology best practices across your VelocityEHS journey, from initial analysis and planning, through implementation and ongoing support.

Partnership Case Studies

Comprehensive ESG/GHG Emissions Tracking and Reporting. Trinity successfully implemented the VelocityEHS ESG Solution, featuring comprehensive ESG/GHG emissions calculation and reporting capabilities for a nationwide steel and metals production company. The solution provides a streamlined and consistent process for the client's calculations and data management, while also assisting with clear views of data anomalies. Finally, Trinity developed annual data reports that enable efficient annual regulatory reporting.

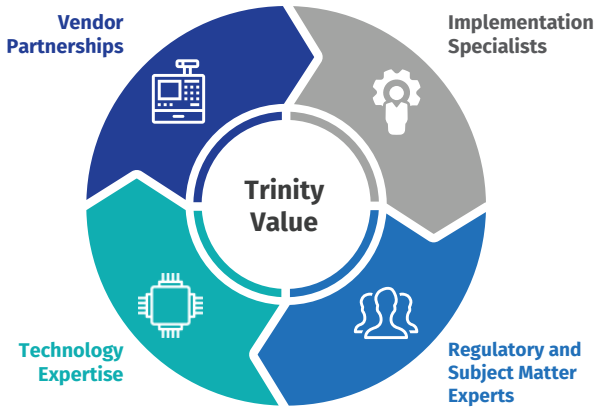
Air & Water Emissions Tracking & Reporting Solution. Trinity implemented the VelocityEHS Environmental Compliance Solution, featuring specialized emissions calculations, regulatory reporting, and water management capabilities for an aerospace sector client. Trinity deconstructed the client's air permits to develop simplified, custom air data entry import tools, which were critical to the success of the transition to the digital platform. Trinity also configured the solution's water capability features to collect the data required and create valuable reports for efficient monitoring and reporting.

Experience the VelocityEHS Difference in a Solution Made Just for You

Built on top of their Accelerate Platform, VelocityEHS' seven platform solutions serve to simplify compliance, drive innovation, and deliver exceptional value. Their solution suite includes ESG, Safety,

Industrial Ergonomics, Control of Work, Health, Operational Risk, and Environmental Compliance.

Hosted securely on the cloud, VelocityEHS' solutions represent a comprehensive SaaS offering designed to help non-experts achieve expert results through a proprietary methodology called ActiveEHS®. Simply put, ActiveEHS combines the expertise and technology you need to mobilize a continuous improvement cycle of prediction, intervention, and quality outcomes.



Work with a Preferred Partner

As a recognized, preferred VelocityEHS services partner, Trinity Consultants brings deep domain experience, talent, and solution accelerators to your unique engagement. Let us help you maximize the value of your VelocityEHS project through our client-first approach:

- **Plan.** Based on a full assessment of your unique organizational needs, we help you develop a comprehensive roadmap and implementation plan for your near-term and long-term objectives.
- **Design.** We then prepare your team for the journey, collaboratively design the solution blueprint, and (where needed) complete a pilot/proof-of-concept.
- **Build.** Upon design sign-off, Trinity assists in the data discovery, system configuration, report generation, and integrated build-out of your VelocityEHS solution.
- **Deploy.** Before go-live, we facilitate user acceptance testing to ensure your deployed solution meets your intended design and co-deliver end-user training to ready your organization for the impending change.
- **Support.** Trinity remains committed to your success, providing the necessary services you need to sustain, improve, and evolve for optimal performance.

Experience the Benefits of VelocityEHS + Trinity

- Streamlined deployment based on intelligently designed solutions
- Unique agile-waterfall build methodology to allow for an evolutionary deployment without sacrificing timeline or budget
- Rigorous system validation through proven test and implementation strategies
- Organizational change management ensuring widespread user adoption
- Sustained platform life expectancy supported by a preferred VelocityEHS partner
- Access to both Trinity's extensive domain knowledge and software expertise, as well as VelocityEHS' dedicated services team
- Reduced project risk from launch through ongoing maintenance and support

Ensure a Successful Journey with Trinity Consultants

Improve your ability to manage EHS and ESG programs across the board. Enable the unified processes you need to ensure compliance and reduce risk with Trinity. We're your go-to source for delivering expert-backed services for each stage of your VelocityEHS software journey — from organizational readiness assessments to regulatory consulting, and beyond.
